Newfield N.J. July 13 Thursday

July 13 Thursday A.M.

Tramps along extension Columbia avenue -

Jung. connivens

Lepidozia setacea fertile

Chiloscyphus ascendens fertile on old log -

Scut. Gaultheria procumb & Lechnea Polyg. lutea

Ilex opaca Smilax

Septoria Rubi on Blackberry leaves -

July 13 Thursday contin

Swamp near Tank

Sphagnum acutifolium fertile

Didymium umbilicatum

July 15

Hygrophorus miniatus parasitic on Sphagnum

Cercospora Rhuina on Rhus copallina

Cibraria intricata on decayed log with Penicillium glaucum parasitic upon it.

Stigmonitis ?-

Stereum striatum

Fusisporium on Rubus

Swamp near Tank continued

Sphagnum cymbifolium
ducts rich in large chlorophyll
granules -

Dicranum flagellare

Odonto Schisma Sphagni (Sphag. commune)

Pinaria

Jung. connivens
catenulata
divaricata fertile
crenulata

Lepidozia setacea

Scapania nemorosa var
leaves round. entire
lobes entire -

" nemorosa var. undd -

Aneura multifida
on log near stream

Hypnum Sterile

Manaway Branch swamp
Saturday July 15/82
past Mr Bloomingdales farm

Jung. connivens on decayed

Saturday July 15 1882
back Mr Bloomingdales farm
Jung. connivens on decayed wood &c
" bicaphylla
Sphagnum papillosum sterile
" cymbifol.
" acutifol. ?
Fungi
Venturia fuliginella ex R. Cassandra calyx leaves
Stemonitis
Sphaeria grumata Cooke Androm. lig. branch

July 16th 1882 Sunday

Back of Ellis' house in swamp.
Tetraphis pellucida
Splachnum intermedium sterile
" cymbifol.
(Jung. curvifolia = Hyp. decurrens)
Mnium Grayana forma viridis
Jung. connivens
Aneura multifida
Glyphomitrium crispula
Aneura pinguis ? lost
Hypnum salebrosum sterile
" decurrens NO!
" ?
" ?

Nectria cinnabarina punicea
Marasmius praecultus Ell
Areyria farinosa
upon hospitalis
Peziza Virginica
(Aecidium imbricatum Schw. Mahanay Branch)
Sphaeria subcondea C & P
Oenothera biennis
Agaricus campanella
Didymium xanthopus
(Coenangium Cephalanthi Mahanay Branch)
Stereum striatum
Cibraria cinerea
Penicillium glaucum
Didymium umbilicatum Schw.

Monday July 17 - 1882

Started for Bloomingdale
Swamp (Manandy Branch)
Ag. Peziza transformans upon Carex
Aecidium Rosea Gerh. upon Rosea lucens

upon rotten logs

Sphagnum papillosum
" cymbifolium
"
"
along roadside
Pogonatum brachyphyllum
Scapania albicans var
leaves & lobes entire very nearly taxifolia?

Monday July 17/82
Swamp west of Tank arbor
Helonias bullata grows -
Sphagnum Austini Sull. fine!
cross sec. leaves short
it is undoubtedly this species.
Stetzia Lyellii (Hook) Lehm.
Jung. crenulata
Aneds.
upon minulus leaves -

Tuesday July 18.

A.M.

Swamp west of Tank)
Sph. Austini
" auriculo fertile stem

P.M.

Swamp back of Ellis' house
Calypogeia Trichomanis
Sphag. cymbifol in fruit
Steckia Lyellii
Pleuridium undulatum
Hyp. imponens fertile
Hyp. turfaceum Lindb.
Sph cuspidatum
" intermedium
Thelia asprella sterile
bipapillose leaves!

Wednesday July 19

Went to Wilson grove 2½ miles
West of Newfield - passed through
Pleasantville -
Followed road past Stevens's
Store right to a

Pleasantville –
Followed road past Stumer's
Store kept by a German by name
of ~~Norman~~ Nuremberg –
Hired boat & rowed some
distance along shore of the dam
when I found
Sphagnum macrophyllum
" Portoricense new
" Cuspidat. forsyi. plumosa?
& var

Thursday July 20

A.M. To Tank Swamp left
or East of Tank
found
Sphagnum rigidum var compactum
in fruit
(in a place about 1 yard long – nowhere
else near by thus far.

Friday July 21 –

Walked with Mr Ellis to
Willow Grove & secured
additional specimen of
Sphag. macrophyllum
" Portoricense & cuspidat

Saturday 22

In doors all day - rested

Sunday 23

F Fanks twice found nothing of importance. [illegible]

Mr Chandler on a visit to Mr & Mrs Ellis - a neighbor of theirs also from Potsdam St Lawrence Co. N.Y. -

Monday 24

Went to Millville 10 m. South visited green glass works of W. T. & Co then went to Steddeville a short distance below Millville where W. T. & Co

below Millville where M. Flint Glass. works is situated. The White Sand used in Green glass worn is said to come from a place 6 miles south. The White Sand used in flint glass is from N. York or Boston.
Marl used to color green glass was found upon Populus alba in the town
Orthotrichum Ohioense (fruit)
Leskea obscura (sterile)

Tuesday July 25

Remained in house all day.
Spent part of the time ~~Examining Fungi~~ with Mr Ellis.
examining Fungi

Wednesday 26

A.M. Spent with Mr Ellis
Examining Fungi
P.M. Went to swamp
~~Hedwigia~~ (East of Tank)
Sph. cuspidata a beautiful species

Thursday 27

AM 8.33 to 2 pm 4 pm.

North of Newfield with

Mr Ellis Sphagnum cymbifol. rejected

" cusp. var Torr. & Ge.

" in stream near Sawmill

also Sphagnum papillos. rejected.

Lophocolea

Madotheca plat.

Crown Inn Reichee

Conrad Ruetschi, Swiss Squatter on
lived on South side of river where the
Simpson tract when this tract
by the Moravians.
This Squatter lived on Simpson
Tract before Bethlehem was built.
1741 - came over 1735

1743 Mar. 11 -
Ferry tract a acres river first launched.
Adam Schauss one of the first to attend to ferry
1743 Apr 23 he lived on Jacobstein plantation
kept a public house in a orderly way.
Antes for Moravians against Irish for
Ruetschi against Antes for Moravians
suit of ejectment not carried on
but amicably settled & Ruetschi
left later being paid by Moravs.
for the improvements he made.

Simpson Tract 274 acres
Tract on which Bethl 500 "
is built

Simpson tract was divided into
4 farms by the Moravians

Simpson tract was divided into
4 farms by the Moravians
Luckenbach — Jacobi —
Fuehrer — Hoffert —
1745 — in spring site selected for building
Gem Inn & completed 1745 Sept
40 x 28 feet of white oak
4 rooms each story — floors
1¼ in white oak plank —
~~no nails~~ wrought nails used.
110 years after its Erection it
was torn down in 1855 about.
Fifteen landlords Sept 1745
& Oct 1794
Samuel Powell
Frederic Hartmann 1st to obtain
Jobst Vallert 1747 license & sell beer & cider
June 1746
Hartman Verdries 1748
